

# NFPA **FORE Electrical Safety**

Advanced Course conforms with NFPA 70E Requirements and Standards of OSHA 1910 Subpart S & OSHA 1926 Subpart K

- 2
- 50 Learning Topics
- 16 Hours Live Interactive Sessions

Pre-course Preparation

Classroom Assessment

Videos & Exercises

- Comprehensive Learning Kit

NFPA 70E Handbook (2021 Edition)

Continuous Learning Validation Certificate

## 28 – 31 March 2023

09:00 - 13:30 ATLANTIC STANDARD TIME (AST) 13:00 - 17:30 GREENWICH MEAN TIME (GMT) www.biiworld.com

### **Course Overview**

Employers need to have robust safety plans in place how to keep employees safe in the workplace. The risks of shock, electrocution, arc flash, and arc blast still remain a significant health and safety concern for organizations though they have. According to NFPA, each week nearly three fatalities, and annually thousands are injured by electrical hazards. These incidents could have been prevented through compliance with the latest safety codes and standards.

NFPA 70E, Standard for Electrical Safety has become quintessential to reduce exposure to risks and reduce electrical injuries and fatalities. It was initially created to provide a document that meets the need of the Occupational Safety and Health Administration (OSHA). Now it helps companies and employees avoid workplace injuries and fatalities due to shock, electrocution, arc flash, and arc blast, and assists in complying with OSHA 1910 Subpart S and OSHA 1926 Subpart K.

This electrical safety training program is developed to train Electrical Engineers and Safety Specialist about the latest NFPA 70E standard. It also helps fulfill training requirements associated with OSHA compliance.

#### **Learning Objectives**

- 1. Understand Arc Flash, Arc Blast and Shock hazards
- 2. Understand what PPE to use and when
- 3. Understand Arc Flash Labels and requirements
- 4. Know the difference between Qualified and Unqualified person
- 5. Selection and precautions of multimeters
- 6. LOTO requirements
- 7. Hazard Risk Assessments for Shock and Arc Flash hazards
- 8. Understand Insulated tools and shielding materials

## **Benefits of Attending**

#### For Employers

The course will give employers information on what they need to provide employees and why they need to provide it to reduce costly injuries and potential loss of customers and production.

#### For Employees

Employees will learn how to safely interact with electrical equipment. Learn what Arc Flash labels mean. Learn what PPE to use and when to use it to go home safe. Multimeter selection and precautions will be covered as well as insulated tools.

### NFPA 70E Handbook for Electrical Safety in the Workplace

This book is essential for anyone with interest in ending electrical-related accidents, liability, and loss offers expert information on subjects ranging from safety-related work practices to special equipment and maintenance requirements.

Informative Annexes of this book provide in-depth coverage of personal protective equipment (PPE), developments in electrical design, risk assessment and control, human performance and electrical safety, and many other critical topics.

## The new 2021 edition features extensive changes, including:

- 1. Revisions to Article 110 to incorporate the general requirements for electrical safety-related work programs, practices, and procedures from other articles
- 2. References to arc-resistant switchgear in Tables 130.5(C) and 130.7(C)(15)(a) changed to arc-resistant equipment to address the use of other types of arc-resistant equipment
- 3. Addition of Article 360, Safety-Related Requirements for Capacitors, and Annex R, Working with Capacitors, to address specific electrical safety requirements unique to capacitors
- 4. Edits to Annex D, Incident Energy and Arc Flash Boundary Calculation Methods, to reference IEEE-1584-2018 as a method of calculation

### Who Should Attend?

#### Industries

- Oil and Gas
- Chemicals
- Mining
- Manufacturing
- Automobiles
- Aviation
- Food and Beverages
- Healthcare
- Hospitality
- Construction
- IT and Finance
- Government

#### **HSSE Department**

- Fire Safety Officer
- Fire Prevention Engineer
- Fire Code Enforcers
- Fire and Safety Manager
- Safety Manager
- Risk managers
- Loss Control Specialists
- Emergency Response Team
- HSSE Manager
- HSE Manager
- Law Enforcement Officials
- Fire Safety Consultants
- Facility managers

#### **Operation Department**

- Electrical Engineers
- Maintenance Supervisor
- Maintenance Staff
- Engineering Managers
- Plant Managers
- Operation Managers
- HVAC Technicians
- Solar & Wind Generator
   Installers/Maintainers
- Contractors & Consultants

## Instructor: Brent Mollenhauer CSP, CESCP

## Certifications

- 1. Certified Safety Professional (CSP) awarded by Board of Certified Safety Professionals (BCSP), USA
- 2. Certified Electrical Safety Compliance Professional (CESCP) awarded by National Fire Protection Association (NFPA), USA
- 3. OSHA Authorized Construction Trainer awarded by Occupational Health & Safety Association (OSHA), USA

## **Profile Highlights**

- 1. Brent is Electrical Safety Trainer and Compliance Auditor who delivers training globally on the standards of NFPA 70E and OSHA.
- 2. Prior to this, he was the contractor safety specialist for a large industrial facility.
- 3. He is also an OSHA Authorized Construction Trainer and has trained customers in numerous OSHA Safety topics.
- 4. He has also proudly served in the United States Marine Corps as a sergeant (E-5) and worked as a Field Wireman.

### **Training Methodology**

- 1. Pre-Course Preparation:
  - Pre-course questionnaire needs to be filled and submitted by the attendees before the online training. This will help the trainer to format the training as per attendees' understanding level and specific requirements.
  - b. Pre-course materials and assignments will be provided by the trainer before the online training.
     Attendees need to study the material and submit the assignments before entering the online classroom.
- 2. Real Time Virtual Training: This course in principle does not differ to the direct presentation and assessment (face to face training). In 4-day classroom immersion, all the material in the original syllabus will be presented online as well as the tests.
- 3. Live Interactive Sessions: Polling, Q&A round will be provided to interact with the trainer online. Trainer will also be available post course to interact with the attendees.
- 4. Videos & Exercises: Live arc flash videos will be shown to both show what could happen and why we wear the clothing. There will be a few class exercises during the training.
- 5. Comprehensive Learning Kit: Trainer will provide course materials during/after the training which will be helpful for the attendees as the future reference in their continuous learning journey.
- 6. Break Down Day Timing:

Session 1	60 min
1 <sup>st</sup> Break	10 min
Session 2	60 min
2 <sup>nd</sup> Break	10 min
Session 3	60 min
3 <sup>rd</sup> Break	10 min
Session 4	60 min

#### **Continuous Learning Validation Certificate:**

- This certificate will validate and certify the attendees' credibility shown in continuous learning.
- The attendees will receive soft copy of this certificate only after attending all the 4 days training.

### **Course Outline**

## Day 1

#### 1. Introductions

- Electrical Safety Training
- OSHA NFPA 70E
- Electrical Safety History How did we get here?

#### 2. Importance of Electrical Safety

- Video case study arc flash survivor
- Types of electrical hazards: Shock, arc flash, arc blast
- Fatality Statistics
- Where are we today vs 30 years ago and why?

#### 3. Effects of electrical shock on the body

- When can people sense shock?
- What happens when someone gets locked on?
  - i. Contact Release best methods
  - ii. What do we do after an electrical shock incident?
- Paths electricity might take though the body and our defenses
- What affects severity of shock injury?
- Introduction to Ground Fault Circuit Interrupters

#### 4. Introduction to Arc Flash

- Protection from Arc Flash burns
- Arc Rated Clothing vs Cotton clothing
- 5. 1st 6th degree burns that could result from Arc Flash
  - What happens to the skin with each?
- 6. Main Reasons for and Arc Flash event.
- 7. What is the human body exposed to in an arc flash event?

#### 8. Arc flash severity videos

- Videos showing the advantage of overcurrent protection
- 9. The components of an Arc Flash Label and what do they mean

#### 10.Arc Flash PPE

- What is worn for Category o 4?
- Video showing the importance of proper layering of clothing
- 11.Discussion on "Dangerous" gear and our defense against Blast

#### 12.OSHA 1910.331 – 335 Electrical Safety Related Work Practices Overview

- Scope
- Training Requirements
  - i. OSHA requirements for Qualified workers
  - ii. Who should be trained?
- Body position discussion
  - i. What is proper when interacting with electrical equipment?
- Overview of Lockout-Tagout
  - i. Shutting Down Equipment
  - ii. Restoring Equipment to service
- Overhead Power Lines
  - i. Distances and precautions
  - ii. Vehicles and mechanical equipment near overhead power lines

#### 13. Test Instruments and Equipment

- What multimeter should I use?
- Pre-use inspection of multimeter

## Day 2

#### 14.OSHA requirements around Personal Protective Equipment

#### 15. Alerting Techniques

• Signs, Barricades, Attendants

#### 16.Ensuring a Safe Workplace – Introduction to NFPA 70E

- What is NFPA 70E?
- Technical Committee
- Standard Layout

#### 17.Responsibilities

- Employer Responsibilities
- Employee Responsibilities

#### 18.Hazard Elimination – Our #1 Priority

#### 19. Electrically Safe Work Condition

When do we need to de-energize?

#### 20.Energized work

• Requirements around justification for energized work.

#### 21.Normal Operating Condition

• What must be in place to interact with electrical equipment?

## 22.Elements of an electrical safety program

- Risk assessments: Arc flash and shock risk assessments
- Human Error and error reduction techniques
- Hierarchy of Controls

#### 23. Job safety planning and job briefing

#### 24.Auditing

- Program Audit
- Field Work Audits

## Day 3

- **25.**Training Requirements
- **26.Qualified Person Training** Requirements
- 27.Retraining Requirements

#### 28. Emergency Response Training

- Contact Release
- First Aid, CPR, AED
- 29. Host and Contract Employers' Responsibilities
- 30.Corded Tools and Extension Cords

#### **31.GFCI Requirements**

- We Areas
- Maintenance Activities
- Work outside

#### 32. Electrical Safe Working Condition

• Complex vs Single source LOTO

#### 33. Establishing an Electrically Safe Work Condition

- 8 step process
- Detailed overview of using a multimeter for verification
  - "live-dead-live" i.
- Grounds

#### 34. Energized Electrical Work Permit

- Requirements
- Exemptions to the permit

#### 35.Shock Risk Assessment

- AC/DC Shock tables
- Shock Boundary Requirements

#### **36.Arc Flash Risk Assessment**

- Look at Likelihood and severity of injury
- Task Table 130.5(C)
- Selecting appropriate PPE

#### 37.Arc Flash Boundary

• Specifically, what does it mean?

#### 38.Incident energy analysis

#### 39. Arc Flash label requirements

#### 40.Personal Protective Equipment

• Videos comparing arc rated clothing vs other materials

#### 41.Shock PPE

• Testing Requirements

#### 42.Arc Rated Clothing fit and Care

#### 43. Class Activity

- Arc Flash Risk Assessment: Tables Method
- Arc Flash Risk Assessment: Incident Energy Analysis

#### 44.Insulated Tools

#### 45.Barriers/insulating materials

#### 46.Precautions

- Bling Reaching
- Illumination
- Conductive articles worn/used
- Clear Working Space

#### 47.Cutting/Drilling

#### 48.Removal/cutting of conductors

#### 49. Chapter 2 overview

- Maintenance of equipment
- NFPA 70B
- Single Line Diagrams

#### 50.Chapter 3 – Safety Requirements for Special Equipment

- Overview of Special Equipment
- Capacitors
  - i. Thresholds
  - ii. Written Procedures
  - iii. Grounding Sticks

#### **51.Informative Annexes**

• Overview of each of the annexes

 $\succ$ 

## FAQs

#### Does BII Online Virtual Training have the same value as traditional classroom training?

Yes, BII Online Virtual Training offers participants; same training system as in-person, i.e face-to-face engagement with instructors, course material, interactive participation of all delegates, and personal support that they would expect to find in a traditional classroom.

## What are main features of your online courses? Are they on-demand? Is it different content from the in-person offering?

The content of the virtual training is similar to the in-person sessions and customized presentation makes it a richer online learning experience. As always, we will share presentation materials with attendees for later reference.

The online courses are not on-demand and recordings cannot be purchased. They are set on scheduled dates, live with an instructor and co-host via webinar software. While the day is shorter than an in-person session (4hrs vs 8hrs), timing are adjusted to accommodate attendees in different time zones and allow more time for one-on-one conversations via the Q & A.

#### What are the technical requirements for participation in a virtual course?

All you need to participate in virtual training are:

- Desktop or Laptop or Tablet Computer, and Internet connection
- Webcam
- Headset with built-in microphone

#### Can I attend an online training session if I have a Macintosh computer?

Yes, Our Online training systems does allow Macintosh computers, PCs, and computers running Linux to easily enter any of our online training sessions.

#### What type and version of browser will I need for online classes?

It is recommended that you use the latest version of Firefox, Chrome or Internet Explorer for Windows and Firefox or Safari for Mac. Each of these is available for free download and also suggested you have the PDF Reader

#### How do I have access to the trainer for questions?

As in the classroom, you will see the trainer in front of you and have the opportunity to ask questions at any time - all via audio and video transmission.

## Is there a mute option within an online training session to minimize background noise from my audio connection?

Yes, the Mute button will display to the right of your name as you hover your mouse over your name shown in the Participants panel on the top, right side of the Web conferencing screen.

#### Do I get a Certificate at the end?

Yes, you will get a PDF version of your certificate of completion

## **Certified Fire Protection Specialist**

Facilitator : John Redden Date : 08 - 12 May 2023 Timings : 09:00 to 13:30 Atlantic Standard Time (AST)

The purpose of the Certified Fire Protection Specialist (CFPS) credential is to recognize, through certification, qualified individuals who are dedicated to curtailing fire loss, both physical and financial and who have acquired a level of professionalism through applied work experiences and related education opportunities and through successful completion of a certification examination.

This 5 day online course provides you the overview of the NFPA Fire Protection Handbook and the methodology to use the book to write the open book CFPS exam. It also covers all the NFPA codes and standards associated with the CFPS program.

### John Redden CFPS, AlFireE

The facilitator of this course is a Global Fire Protection Specialist with 40+ years of experience and demonstrated history of working in the public safety industry.

He is highly skilled in Fire Management, Emergency Management, Confined Space Rescue, Vehicle Extrication and Emergency Medical Services (EMS). Previously, he was a Training Officer for Federal Government of Canada Office of the Fire Commissioners and later took the role of Investigator in the Fire Commissioner's Office.

Website:	NFFA foe book 2021 Edition and Training Manual
	20 USD administration charge and any applicable withholding or any other tax or fee will be applied
FERMS & CONDITIONS: Payment terms: Bil World LTD requires the full payment of the invoiced amount within 7 working days from the issue date of the	5. Postponement of the event : In case BII World Ltd postpones the event to a new date, then client can choose any of the below mentioned options. (-) The client can stead the source on the northogened date.

(b) Client can choose the credit option for 2 years, for more details please read term no-2 part (a)

6. Client's identification information. By signing of this sales contract and these terms and conditions the client gives full right to BII World LTD to share the client's identification information, i.e. client's name, address, email addresses, phone numbers and names of representatives and website with other clients who participated in the same event. The client has the right to opt out of this clause by written notice to BII World LTD.

7. Governing law: This contract shall be governed by and construed in accordance with the laws of the Pr ovince of Alberta, Canada. Any disputes arising under or in connection with this registr ation form shall be settled before the competent court in Canada

8. Indemnification: To the fullest extent permitted by the law, you agree to protect, indemnify, defend and hold harmless BII World LTD, its owners, managers, partners, subsidiaries, affiliates, officers, directors, employees and agents, from and against any and all claims, losses or damages to persons or property, governmental charges or fines, penalties, and costs (including reasonable attorney's fees) (collectively "the Claims"), in any way arising out of or relating to the event that is the subject of this contract, and regardless of negligence, included but not limited to, Claims arising out of the negligence, gross negligence or intentional misconduct of BII World LTD employees, agents, contractors, and attendees; provided, however, that nothing in this indemnification shall require you to indemnify BII World LTD Indemnified parties for that portion of any Claim arising out of the sole negligence, gross negligence or intentional misconduct of the BII World LTD parties.

9. Other currencies. In case that client requests payment in other than official currency (USD), BII World LTD reserves the right to apply 5% currency risk surcharge to the actual exchange rate.

10. Other Conditions: Any terms or conditions contained in the client's acceptance which contradict or are different from the terms and conditions of this registration document shall not become part of the contract unless individually negotiated with BII World LTD and expressly accepted by BII World LTD.

voice. BII World LTD reserves the right to refuse entry to any client who does not pay the invoice in full and on time. The registration fee includes: Training documentation and admission to all training sessions

2. Cancellation by client: The client has the right to cancel his/her participation in the event. Cancellation must be received by BII World LTD in writing either by mail or fax. If the client cancels the event, he/she will get two options:

- A. CREDIT NOTE: Choose 2-year credit note, BII World LTD will send all the schedule training event details throughout the year.
- Delegate has the right to choose and attend any of the training programs (valid 2 years). B- NOMINATION: In this option delegate can nominate/refer someone from his/her group/company to attend the particular
- training program on behalf of the actual delegate.

3. Cancellation by BII World LTD : While every reasonable effort is made to adhere to the advertised program, circumstances can arise which may cause changes in the program, including but not limited to changes in the content, date(s), or special features of the planned event. Such circumstances include but are not limited to acts of terrorism, war, extreme weather conditions, compliance with government requests, orders and legal requirements, failure of third-party suppliers to timely deliver, and failure to register the With government requests, orders and legal requirements, failure or third-party suppliers to timely deliver, and failure to register the minimum target number of attendees for a given event. Bill World IID reserves the right to change the content, date(s), and/ or special features of an event, to merge the event with another event, or to postpone it or cancel it entirely as appropriate under the circumstances. Client agrees that BI World IID shall not be liable for any cost, damage or expense which may be incurred by client as a consequence of the event being so changed, merged, postponed or cancelled and client agrees to hold BII World IID harmless and to indemnify BII World LID in case of liability caused by any such changes, mergers, postponements or cancellations.

4. Cancellation of the event: In case BII World LTD cancels an event, then client can choose any of the below mentioned options:

(a) BII World LTD will refund full payment to the client within 15 business days.
 (b) Client can choose the credit option for 2 years, for more details please read term no-2 part (a)
