COURSE OVERVIEW:

This 4 Day course is based on NFPA 1041: Standard for Fire Service Instructor Professional Qualifications Fire Instructor 1, is uniquely designed to teach firefighters the knowledge and ability to deliver instruction effectively. All course objectives provide information that will aid participants in their understanding and to be successful as an instructor.

The course meets or exceeds the requirements of the National Fire Protection Association (NFPA) professional qualifications standard 1041 for Fire Instructor I certification.

The required text for the course is IFSTA's Fire and Emergency Services Instructor, 9th Edition. This includes the workbook, participants need to purchase it as part of the registration process.

MAIN LEARNING OBJECTIVES:

1. Describe the duties and responsibilities of an Instructor I.
2. Summarize the foundations of learning.
3. Illustrate learning obstacles and learning plateaus.
4. Explain the importance of organization, session preparation, and session logistics when planning to teach.
5. Adapt a prepared lesson plan provided by the authority having jurisdiction (AHJ).
6. Characterize competency-based learning in the fire and emergency services.
7. Describe ways instructors can address individual student needs in fire and emergency services training.
8. Identify types of legal liability for which instructors and/or organizations may be held accountable.

Profile Highlights

Terry combines a unique background in education and emergency response with a passion for instruction. Terry has spent twenty-five years in emergency response, most of that as a trainer and instructor. His knowledge of instructional methodology combined with formal education and experience as a 'boots on the ground' responder gives meaning to the response plans that he develops and delivers.

Terry has delivered interactive sessions in emergency response to hundreds of groups at the local, regional and national level across the US from Chicago to Texas and internationally in Qatar, Kuwait, UAE and Trinidad & Tobago and many more.

His work in Thermal Imaging instruction for emergency response was ground breaking. His goals are to give you tools that you not only can but will implement into your workplace every day. His response planning and instructional experiences include fire fighting, hazardous materials response, mass casualty incidents, oil and gas industry, response to terrorist events and emergency medical response. Terry has had several articles published in trade journals and presents at international conferences and exhibitions.
